The CONVENTION for the Sixth Senatorial District (3d, 4th, 5th Wards and the 1st and 2d Wards) will be held at the Layton House, at 2d Wards, P. M., Sept. 25th.

Order of the

COUNTY COMMITTEE.

Milwaukee, Aug. 30, 1852.

Circulate the Documents!

To the friends of Scott and Graham; of Home Labor, Master Improvements, and the Fathers of the West!

We will send you the Weekly Sentinel, from this date till the 10th of November, in Clubs to our address, for TWENTY CENTS per copy.

This is surely cast price. Friends! Will you not see to it that the South goes into every Whig District in the State?

We have received, and now ready for distribution, several thousand copies in English and German, of the Life of Gen. SCOTT. They are for sale at \$2.25 per handbilled copy, or \$1.25 cents per dozen. Send in your orders, and at once!

The German Campaign paper will be published during the Campaign Weekly, at 75 cents per copy, or \$6.00 for 10 copies, \$12.50 for 25 copies, \$20 for 50 copies and \$30 for 100 copies. No time should be lost in securing the widest possible circulation for this Campaign Paper. Friends of SCOTT and GRAHAM! Be up and doing!

Orders for the German paper should be addressed to A. ROBBINS, Esq., at the Sentinel office. Orders for the Weekly Sentinel, or copies of the Life of SCOTT, should be addressed to the undersigned. In all cases the money must accompany the order.

RUFUS KING &amp; CO.

Sept. 1st, 1852.

THE LIFE OF GENERAL SCOTT.

We have just received several thousand copies of the Life of General SCOTT. It is a document which ought to be placed in the hands of every Voter in Wisconsin. No time should be lost in distributing the work, for wide and throughout our State. We again urge the friends of SCOTT &amp; GRAHAM to take immediate steps to secure this work. Copies of the work will be furnished at a nominal price, and will be sent to the printer for publication.

No doubt of it. These charges were trumped up, by despotic politicians, for effect upon the Presidential election. The entire Press has engaged zealously in their dissemination. And yet no man entertains a doubt of their utter falsity! It is by such means that the "Pierce and King" Democracy hope to carry the day. We shall see whether this "cheating play

prosperous."

CHINER IN CALIFORNIA.—The first two Chinese arrived at San Francisco in 1848. On the 1st of February, 1849, there were 55 in California, and during that year, 737 arrived. On the 1st January, 1851, there were 4024 in the State, and the estimated number now is over 27,000. A correspondent from the West says, "We have already said, that the California fever has just reached Shanghai and the North, and that this section of the Celestial Empire is destined to break loose for California. The probable immigration from China during the next four months and a half of the present year, therefore becomes an interesting object of inquiry."

There is a table of rates. Why don't the Advo-  
cates publish it?

SEN'D IN YOUR ORDERS!

WHY I AM A WHIG?

We have a copy of this pamphlet, from the pen of Horace Greeley, ready for sale and distribution.

It is a right exposition of the distinctive principles of the Whig party, and of the points of difference between the Whigs and so-called Democrats. Price per single copy 25 cents for a dozen copies 20 cents, and for 100 copies \$1.00.

RUFUS KING &amp; CO.

Milwaukee, Aug. 26.

THE POMONI OF PAINTLIS.

In German, nearly the same as the last, addressed to German Adopted Citizens. Price, \$1.25 per 100; 10c per

cent.

We have a capital letter from our friend F.

F. We have the grand ratification meeting about a dozen times since the nominations. The latest ad-

dress are that they have again put it off till the State Fair, in order that they may get enough

people together to raise a respectable cheer.

# VOLUME VIII.

## DAILY SENTINEL.

BY TELEGRAPH.

Reported for the Daily Sentinel.

BY SPEED'S LINE.

Buffalo, Sept. 11.

An attempt was made yesterday to reach the steamer *Atlantic*. A man descended 105 feet, and found it entirely practicable, but the great pressure on the lower decks of its bursting, and he was drawn up. A sufficient quantity of hose is now being prepared to withstand the pressure, and another trial will be made on Monday, weather permitting.

M. Mailefert is confident of success.

Ashtabula, Sept. 13.

The Prop. Jas. Ward was sick yesterday, while trying to make this port.

She had a dead load of ploughs, which was all swept away: 9000 bushels of wheat in her hold.

The main deck is 9 feet below the surface of the water.

By prints disposed.

Milwaukee, Sept. 13, 8 P.M.

Report now coming here—H. Ward is now—

lured down from her news—no other news.

J. S. F.

From the Boston Times.

The Falls of the St. Lawrence.

The steamship *Pacific*, Capt. Nye, left Liverpool on the 26th of July last bound for New York, with about one hundred passengers, bound for the United States, and a crew of about 150 more. On getting into the harbor, she was about 1000 fms. from the port of Liverpool, Capt. Nye, discovered a difference in his compasses from the one he had used in his passage to Liverpool, Capt. Nye, leaving Liverpool, and the difference was made for this difference, which proved correct, as the ship passed the Tynker Light and Cape Cleat at about the distance intended. The first 24 hours run was very favorable, being 100 miles, and the second, 80 miles. On Friday, the 2d, she was out, being entirely clear of Ireland and on the broad Atlantic, a thick fog set in, which lasted until Monday, when she was enabled to get a good sight of the great circle or latitude intended. The ship's course was then altered so as to place her on that circle line, and which would carry her about five or ten miles south of Cork.

On Wednesday morning at 6 o'clock, it was ascertained we were about abreast of the Cape, and the officers and men forward were told to keep a good lookout astern. At 8 o'clock, the fog thick, a sudden call was made for "boat alongside." The engines were ordered to be stopped, but before this could be done, the boat which went to the stern, was swept away, and the crew were all lost, except one, who was killed. Fragments of the boat only being seen floating on the surface. By this time the engine was stopped, and the ship's headway deadened, when about the length of one ship ahead, a boat was seen, and the helmsman was ordered to the starboard, the ship rounded to, almost as it were, on a pivot, a small pantebox coming within a few feet of an immense rock, supposed to be from three to five hundred feet high, and about as long.

Another boat, which were five men, was soon seen around the projecting rock, which soon came down to us and told Capt. Nye that they had been lost, and were bound for the western end of New Foundland, and twenty miles north of Cape Race. Our ship's head was then to the southwest, and after running on that course about twelve miles, it was about 1000 fms. from the point where the boat had been lost. The inmates of the boat said that they were so providentially escaped, caused many a heart to beat with gratitude to the great Disposer of events; so many lives, together with that noble ship, having been saved by the skill and daring of the crew, who were called on to do their duty.

It was the opinion of the passengers that they heard, thro' the fog, the noise of our paddle-wheels, and put off from the last to warn us of our danger. The opinion of the crew was, that in this state of the fog, the loss of life, from experienced nautical men, their opinion as to the property of the Atlantic steamer following, in all cases, when the ship was bound for the United States, called on the crew to do their duty. It was, without doubt, desirable to make Cape Race, but the question is often asked, is it of so much importance that great hazard should be taken to accomplish it? Almost all the ships bound for the United States, when bound for that place. Lost near the Humber, it was said, came within 20 feet of Cape Race Rock. In April last the Niagara came very near being lost, and the fact is said to be due to the skill and daring of the officers, that saved them, that they do not run great hazard. The difference in taking this course, in preference to taking a direct line, is but about 70 miles—and this course it is said, is always taken by Capt. West of the Atlantic.

The State Fair.

Utica, Sept. 9.

This has been the great day of the Fair. The grounds were open to all, and the public had visited them.

Over 2000 conveyances were running to and from the city, and were well patronized.

The fair must look poor to-day, but no doubt a great deal has been made in the matter.

Governor Hunt and the State officers were on the grounds to-day.

To-day is the annual address will be delivered by the Hon. Seymour of this city, and the prize animals will be arranged for exhibition.

Stamps from the Atlantic.

Ashtabula, Sept. 9.

The bodies of two females, supposed to be from the Atlantic, were found last night by the police. One supposed to be about 45 years of age, a foreigner. The other about 25, who was very well dressed, had a plain gold ring on her finger, and a gold watch and chain on her person; the name of Elizabeth Brown, long was marked open her hand.

Boston Sept. 9.

SENATE HALL.—Senator Hale left here yesterday, and will be stumping for the West, for a few or five weeks.

Sayings, Sept. 10.

DESTRUCTION OF THE SPANISH REINDEER was discovered to be at the Bristol landing, at 4 o'clock this morning, and the 2d had to be to the water's edge. The reindeer came from the United States last. We understand the Reindeer was insured for \$55,000 in the Marine Insurance Company, of New York. Fortunately there was no wind, or the whole place might have been destroyed.

The Independent Judicial Convention met at Madison on the 1st inst., pursuant to the published call, and nominated for Chief Justice, Edward M. S. Sturtevant, of Boston, and James H. Knowles of Le Fayette; all good, reliable men, and well qualified for the offices to which they have been nominated; and their names were entered in the list of candidates, and were being put up for election.

More or less—David Steidle and fifty other Germans, of the various townships, have joined the ranks of the *Republique*. They have gone over in a body to the Whig ranks. They intend raising an ast. pole to-day, at the Caleen House, and will next November open the Scott and Graham field office. If the *Republique* is to be at the present rate, there will be no time to muster a corporal's guard by election day.

RENTS AND PLATES PLATE ROAD.—The Monarchs, of the various townships, have had a meeting Tuesday last at the Fox River Hotel, and organized by election five Directors, as follows: C. A. Sweet, J. F. Shumway, A. D. Ruckel, T. F. McCall, and J. C. Smith.

The regular amount has been subscribed and the work will be commenced without delay.

A similar road extending through the Indian Land, to Wauwatosa, should be regarded as of great importance, and steps taken to have a charter, and organize a company.—*Benton Mercury*.

CEASAR AFFAIRS.—On Tuesday, Commodore Perry received a telegraphic dispatch requesting him to go to the United States, and he who passes to know, that the Government has information that an attempt will again be made to invade Cuba from ports in the United States, and that Commodore Perry has been ordered to New York. He has, however, not yet had the benefit of his advice. It is further said that the Commodore will in a few days sail for Havana in the steamer *Mississippi*, for the purpose of preventing any infringement of our treaty stipulations with Spain.—*N. Y. Times* 10 inst.

THE ISLAND LADS.—We have conversed with a gentleman who has travelled through a large portion of the country, and he has informed us that such crops were never seen in any country. A field of wheat, containing some 50 acres, produced the enormous yield of forty tons to the acre. The corn crop is likewise very good. In Marquette, the yield of wheat is so great that many it will not bring over thirty cents per bushel.—*Green Bay Speaker*.

A large load of Railroad Iron.—The brig *S. G. G.* arrived at this place yesterday, with 300 tons of iron for the R. R. U. V. Railroad.—*Green Bay Advocate*.
